

The Hive – Leitrim’s Technology Enterprise Centre Carrick on Shannon

Accommodation solutions ranging from a single desk with high speed fibre broadband access to serviced office suites with fixed cost flexible leases and optional packages including phone systems, print solutions and secretarial support are available.

There is an on site coffee dock, and high tech meeting rooms and training suites which make it the ideal location for your next training or conferencing event with its high profile location on a national primary route (N4). The Hive is also an ideal location for off site interviews or meetings with short and long term flexible availability in a high quality business focused environment.

We hope to achieve a cluster of knowledge based businesses in the centre, where informal and formal networking and co-operation will be encouraged through events and training. On site management and support staff will ensure that you can focus on running your business, not your office space.
